

DIE CUT INSERT CARDS

Beacon produces custom packaging from hundreds of possible material combinations, creating specialized solutions for the most demanding applications. Let our technical team work with you to creatively meet your needs.

Visit our website at www.beaconconverters.com to learn more about our company and our products.

When seeking a cost-effective alternative to rigid tray packaging, consider a peel pouch paired with a custom die cut insert card. Formed from medical grade plastic, insert cards can hold one to many medical devices securely in place, eliminating the need for bulkier, more expensive

packaging options. End users have endorsed this method, as it reduces tooling costs and lead times, typically 60% lower than those of a thermoformed tray. Ask us how we can simplify your life with a new approach to your demanding packaging applications.

Beacon manufactures custom die cut insert cards formed from medical grade plastic. These cards can hold one to many medical devices securely in place, eliminating the need for bulkier packaging.

A peel pouch combined with a custom die cut insert card is a cost effective alternative to a thermoformed tray.
