

LIDDING

Beacon produces custom packaging from hundreds of possible material combinations, creating specialized solutions for the most demanding applications. Let our technical team work with you to creatively meet your needs.

Visit our website at www.beaconconverters.com to learn more about our company and our products.

Heat sealed to a thermoformed tray containing a sterilizable medical device, lidding provides an aseptic opening feature while facilitating sterilization. Beacon lidding materials are sold in a variety of forms depending on the

application: rollstock and lidstock in rectangular or custom die cut shapes. They can be manufactured from materials including coated Dupont™ Tyvek® and foil laminations.

DuPont™ and Tyvek® are trademarks of DuPont.
