

POUCHES

Beacon produces custom packaging from hundreds of possible material combinations, creating specialized solutions for the most demanding applications. Let our technical team work with you to creatively meet your needs.

Visit our website at www.beaconconverters.com to learn more about our company and our products.

Beacon provides pouches for all conventional sterilization methods. Available as peelable or non-peelable packages with several types of opening features, our pouches employ clear or opaque medical grade packaging materials that include Dupont™ Tyvek®, aluminum foil, PET, nylon, paper, polyethylene films, and specialized barrier materials. At Beacon, we understand sterilization and medical device requirements, including the growing number of innovative products that incorporate pharmaceuticals. We provide

pouches over a wide range of shapes and sizes and stand ready to help select the best fit for your application. Pouches can be custom printed with up to 4 colors, and fabricated up to 36 inches wide and 100 inches long. Small orders are available; quantities may range from just a few to more than a million. Materials and pouches are also available in roll form should your business require a more automated packaging approach.

DuPont™ and Tyvek® are trademarks of DuPont.

Beacon employs clear and opaque medical grade packaging materials that include Dupont™ Tyvek®, aluminum foil, PET, nylon, paper, polyethylene film (various kinds), and specialized barrier materials.
